

## Solving Business and Security Challenges from Device to Cloud

Kudelski Security and McAfee have partnered for more than 15 years to help enterprises block cyber threats and secure their data, wherever it is. The combination of McAfee's industry-leading solutions and Kudelski Security's extensive operational experience has helped hundreds of businesses across the US and Europe effectively and securely embrace the cloud.

Kudelski Security has decades of experience designing, integrating, and managing business-oriented security solutions. In 2018 Kudelski Security was named in the top 20 Managed Security Services Providers (MSSPs) worldwide by MSSP Alert, and a leader in emerging MSSPs by Forrester. With over 300 engineers and security professionals on hand, Kudelski Security has the talent and experience to design, build, and manage McAfee solutions for any enterprise environment.

### Full-Spectrum Enterprise Security

- Secure Enterprise Data
- Block cyber threats
- Empower security operations management
- Real-time predictive analytics
- Consistent security policies
- Seamless multi-cloud integration

### End-to-End McAfee Solutions

#### DESIGN

Every environment is different. Solutions are tailored to each customer's unique network architecture.

#### INTEGRATE

Secure shouldn't be a silo. McAfee solutions are integrated seamlessly with existing technologies.

#### MANAGE

Take the pressure off in-house resources. Key McAfee solutions are available as fully managed services.

McAfee is the device-to-cloud cybersecurity company. Inspired by the power of working together, McAfee creates business and consumer solutions that make our world a safer place. By building solutions that work with other companies' products, McAfee helps businesses orchestrate cyber environments that are truly integrated, where protection, detection, and correction of threats happen simultaneously and collaboratively. By protecting consumers across all their devices, McAfee secures their digital lifestyle at home and away. By working with other security players, McAfee is leading the effort to unite against cybercriminals for the benefit of all. [www.mcafee.com](http://www.mcafee.com)
