

MANAGED DETECTION AND RESPONSE (MDR) SERVICES

Protecting your Changing Environments with High-Touch, Customized Threat Detection & Response Services

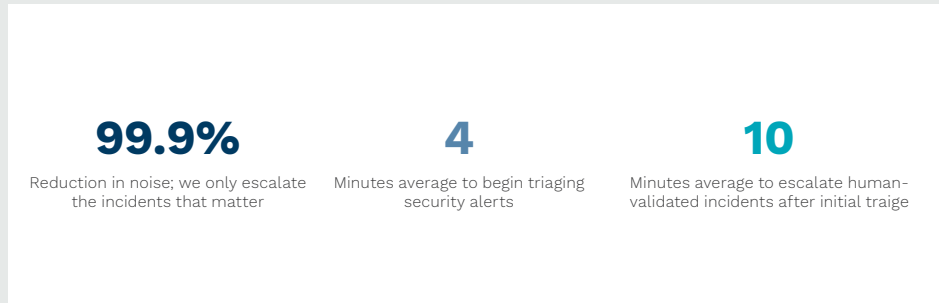

A Different Approach to MDR

Rapid business transformation, the constant evolution of threats, and an increase in cyber criminal activity are driving new security needs. Kudelski Security MDR services, delivered from our Cyber Fusion Centers, are built on proven methodology and industry-leading technology to help you detect and respond rapidly to the threats that impact your organization today and that create new risks for your business tomorrow.

Not All MDRs Are Equal

Get better value from your security investments with services that enable you to overcome modern cyber adversaries and reduce the time it takes to detect and respond to threats active in your environment.

Gain Greater Efficiencies in Threat Detection and Response

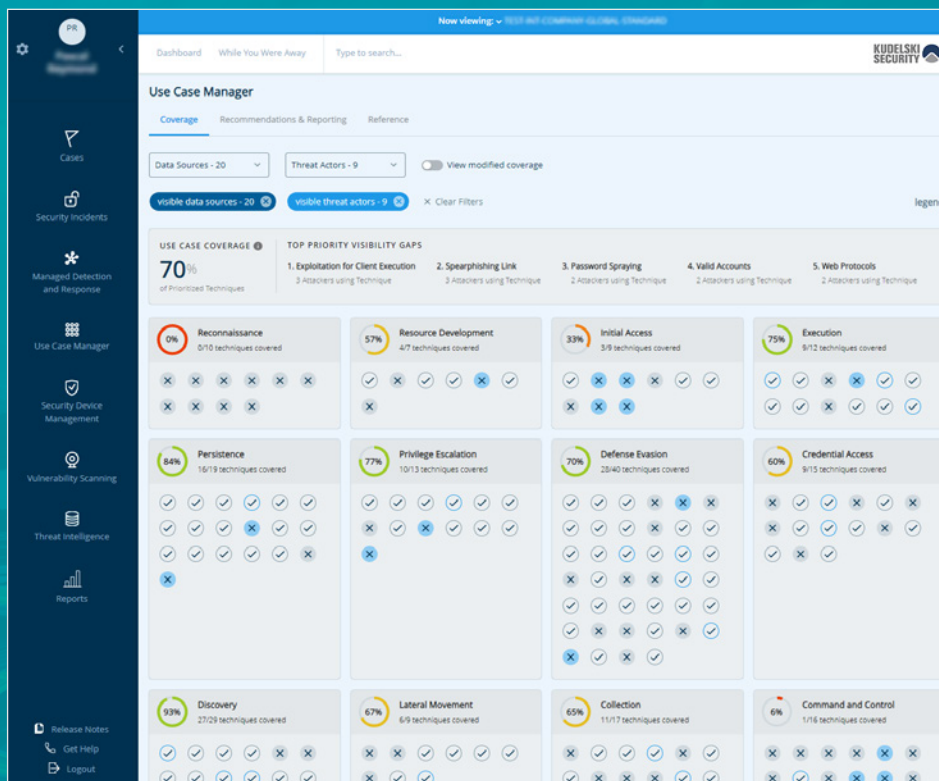

A proprietary Use Case Framework, mapped to the Cyber Kill Chain and MITRE ATT&CK® techniques, underpins our methodology.

We customize the Framework to your business, then perform in-depth investigations on relevant threats. We escalate only validated,

prioritized incidents to your team and co-remediate as needed.

We developed a custom tool, named the Use Case Manager (UCM) to translate the output of the Framework.

From the client portal, the UCM provides an instant view of your security visibility and coverage gaps and supports continuous improvements to your capabilities.

Holistic Security at Your Fingertips: The Award-Winning CFC Client Portal

Our intuitive client portal provides you access to the UCM as well as a whole raft of content and intelligence.

Features include:

- Real-time dashboards and reporting
- Use case detection benchmarking
- Insight into threat hunting activities
- Incident details with prioritized advice
- Visualized SLA performance
- Direct access to analysts, 24/7
- Address threat visibility and coverage gaps

Year After Year, Our MDR Is Recognized by:

Listed 5 years in a row, in the Market Guide for MDR Services

Awarded 'Strong Performer', Forrester Wave™ for MDR, 2021

Recognized as Top Vendor in 2021 MSS/PSS report

Awarded Champion in the MDR Market Update, 2021

Recognized among top 250 MSSPs, globally

Kudelski Security is an innovative and independent provider of tailored cybersecurity solutions, including MDR, to enterprises and public sector institutions, with dual headquarters in Switzerland and the U.S.
