- Operations Enhance efficiency from arrival to showroom, eliminate disconnects between departments.
- Sales Speed up the sales process by equipping sales people with our intuitive mobile tools/apps for quick guidance to customers' desired vehicle.
- Inventory Reconcile and resolve discrepancies and know where all vehicles are located across lots and locations. Search, filter and locate any cars.
- Integrations Optional integration with your Dealer Management Systems (DMS) and flooring software is available to provide all data on a single screen.
- **Customer Satisfaction** Improve CSI and social media reviews by getting customers what they want, faster.

All at ZERO upfront cost!

Car theft recovery system

Unlock additional revenue during F&I by upselling end-customers on our stolen vehicle recovery service.

- **Theft recovery** Customers can use the mobile app to provide a simple link for law enforcement to find their stolen vehicle.
- Vehicle location Your customers can monitor vehicle location on the mobile app to locate their car for any reason they wish, and be alerted if it moves.

 Other benefits - Customers enjoy guaranteed
privacy, possible insurance discounts, and up to \$6000 in cash benefits if the car is not recovered.

HOW IT WORKS

Hide and go!

- Battery-powered, standalone GPS unit placed inside the vehicle or hidden in compartments to minimize detection.
- Installs in less than 1 minute

REST-IN-CLASS	PERFORMANCE
DEST-IN-CEASS	FERFORMANCE

Service & Specifications

- Our secure operations centers ensure the tracking system is operating smoothly 24/7.
- We guarantee 99.9% solution uptime.
- Created by Kudelski Group, a security and technology leader for nearly 70 years.

Battery lifetime	5 years
Size	100 x 45 x 22.5 mm
Cellular	3G, 4G, LTE Cat M1
Location	GPS, BLE, Wi-Fi, cellular positioning
Variants	Indoor non-IP / Outdoor IP67
Operating Temperature	-40 to +85 C
Install time	± 1 minute
